American Cuemaker's Association

ACA Presents Josey Custom Cues • Cuemaker of the Month

Josey Custom Cues are handcrafted by Keith Josey at his one-man shop in Savannah, Georgia. Since 1992, Keith has been making cues for players and collectors around the world. Certainly, quality craftsmanship and superior playability are identifying traits of every hand-signed Josey cue. Based on the customers' specifications, Keith specializes in intricate one-of-a-kind designs, using exotic woods and precious materials such as Mother-of-Pearl, Malachite and Turquoise. Taken as a whole, each cue represents the excellence of form and function that is the hallmark of Josey Custom Cues.

The American Cuemaker's Association was formed to advance the art of cuemaking as a unique form by establishing high standards for American made cues and cue products by promoting the collecting of cues, and by cooperating with other organizations engaged in billiard promotions. For a list of our members, contact the ACA or send email to aca@cuemaker's.org or visit our Web Site at <http://www.cuemakers.org>.
